

Our Ref RT/BREXIT

2nd November 2020

Dear Sirs,

We are writing, with reference to the pending final date of 1st January 2021, for the UK leaving the EU.

Whilst we are all currently dealing with issues surrounding COVID, and the effect that is having, not only on health, business, education and our personal lives. There is also the issue that BREXIT will finally bring to our lives come the new year.

We would like to assure you, as a customer of CERTUSS, that we have put into place all the relevant requirements, to deal with a continued supply of goods and service, to the best of our ability.

At present, the UK Government have not been able to strike a deal with the EU, to allow a smooth transition, for Import/Export of goods to/from UK and mainland Europe. It is therefore fair to say that if we do indeed leave the EU on 1st January 2021, that there is a possibility that Customs charges may be applied to imported/exported goods.

We therefore write to inform that should any charges for Customs apply, on goods being supplied by CERTUSS, that they would be chargeable to you the customer.

The BREXIT situation has been a constant changing issue for us all, and in truth, nobody can actually offer a definitive answer, as to what will happen from 1st January 2021 and therefore all we can do is attempt to prepare.

CERTUSS as a company, do hope very much, that when we finally leave the EU, that our partnership with Europe, will indeed get stronger and benefit all concerned, in these very strange times that we are all experiencing.

Yours faithfully,
for **CERTUSS (UK) LIMITED**
